Introduction

Online Tour and Travel is a very user-friendly project. In this project, users can easily understand and book a package.

According to the tour packages, our website provides services like online booking facilities for all packages.

Online Tour and Travel is a web-based application made in XAMPAA SERVER. So with the help of this project users can apply for packages of tour.

Problem Definition and Objective

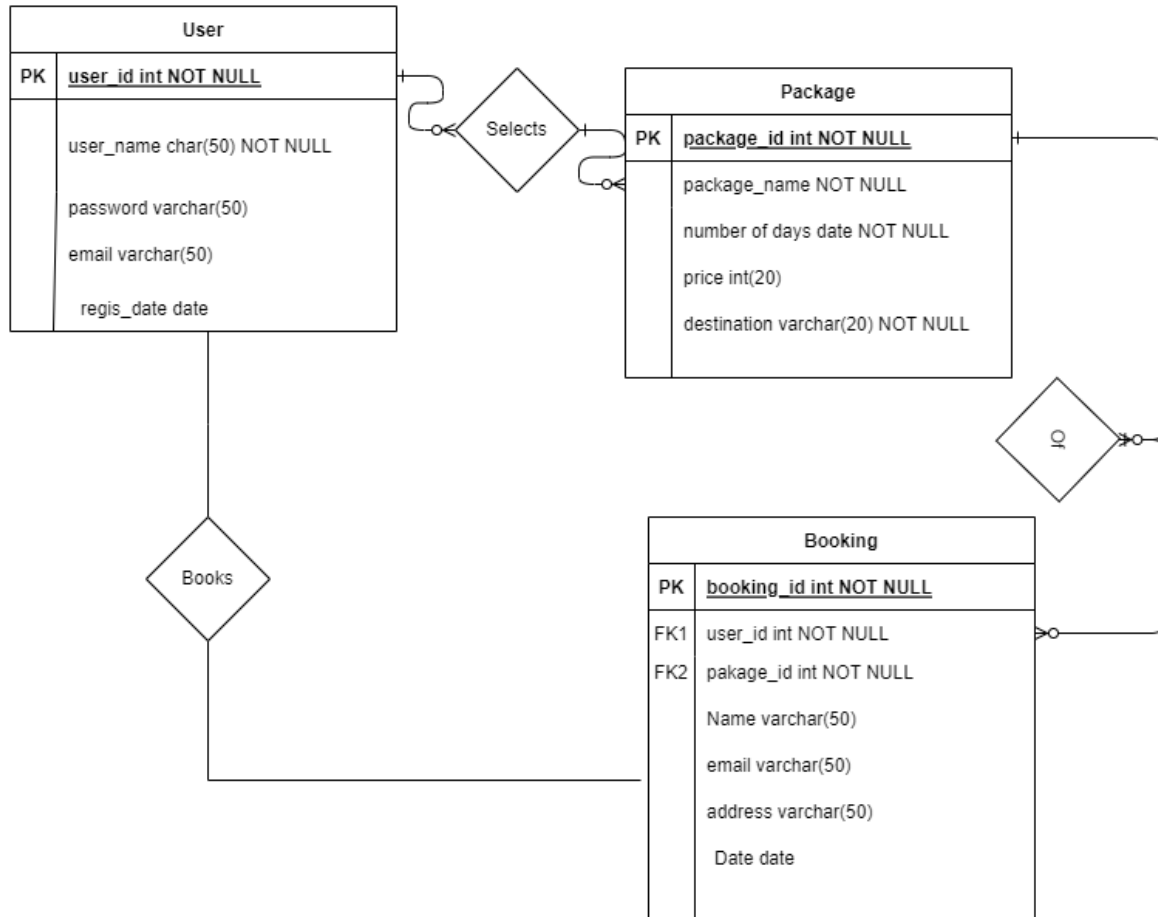

The purpose of Tours and Travel is mainly to provide online booking services for users. The purpose of this site is to book online packages for some of the tourist places in India.

Generally, It is a web-based application to develop a website in which end users interact with the web app easily. On this website, Customers or Users can search and book different tourist places in India.

The purpose of this project is very clear that users can find room facilities easily & hotel service provides good customer very easily. Customers can register on the website to book a package, Our goal is to provide booking services for different types of packages so any user can get this service very easily.

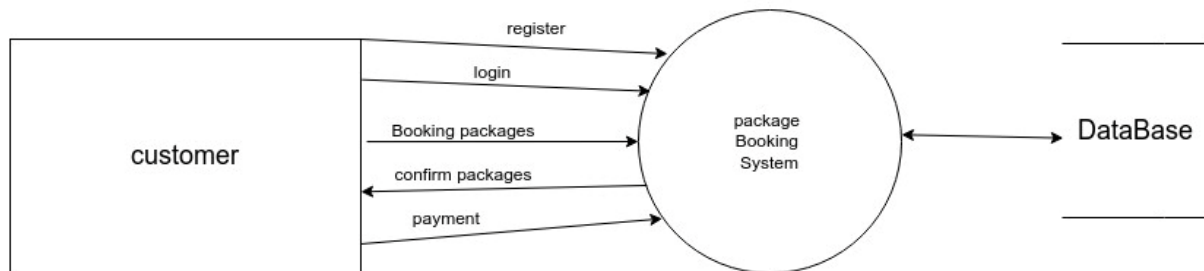

Our main objective is to make strong relationships with customers so that they can enjoy the holiday of their dreams.

6	Maharashtra Package	Aurangabad, Mahabaleshwar, Lonavala, Matheeran, Mum...	9	42000.00	Maharashtra

Booking Table

The screenshot shows the phpMyAdmin interface for the 'booking' table. The table structure is as follows:

booking_id	user_id	name	email	phone	address	package_id	adults	children	date
1	1	name1	test1@test.com	1234567892	home	3	2	1	2023-10-22
2	2	name2	test2@test.com	1234569874	home2	3	2	1	2023-11-05

User Table

The screenshot shows the phpMyAdmin interface for a database named 'anywhere'. The 'user' table is selected, and its structure and data are displayed. The table has columns: user_id, username, email, password, and regis_date. The data shows two users: user1 and user2.

user_id	username	email	password	regis_date
1	user1	test1@test.com	\$2y\$10\$mqWcgtWmFJr61C:23Dc8:NLkMxZOLn5TViUDp2JQ...	2023-10-12 01:21:43
2	user2	test2@test.com	\$2y\$10\$OpwW6K4qKxGaagmDXBzu:KnrRF:KE4vfuQ2VDAH...	2023-10-12 23:39:51

Implementation Details

User Register: The registration process begins with the creation of a user account. Users provide essential information such as their username, email address, and password, conform to password requirements and email verification is implemented to enhance security.

Login Page: The login page is a critical component of a website, serving as the gateway for registered users to access their accounts and the website's features, Once a person registers their account the next step is to login to the page for booking his destination place, Remember this applicable is for old users for new users, they have to fill the registration form.

Packages: This page typically features a user-friendly interface that allows visitors to filter and sort packages based on destination, budget, travel dates, and preferred activities. Each package is presented with enticing visuals, detailed itineraries, and a breakdown of inclusions, from accommodations to guided tours and meals.Travelers can delve into the specifics, such as the number of days, the places they'll visit, and the activities they can enjoy at each location. The availability of customer reviews and ratings adds an element of trust and authenticity, helping potential travellers make informed decisions.

Booking Page: The Booking Page of a travel and tours website is the pivotal point where the dreams and plans of travellers transition into reality. It's the space where users take the next step toward experiencing their desired destinations. At the heart of the Booking Page is an

intuitive and user-friendly interface that allows travellers to review their chosen packages, select their preferred dates, and specify the number of participants. The Booking page often features a confirmation message, and users receive booking emails that provide essential trip details and contact information for support, ensuring a seamless and worry-free journey from start to finish.

Confirmation Page: Once a person completes his/her booking details they will receive a page where all details are available after completing their package and conformation details, and the best part is that the person has to complete his/her payment after completing the trip.

Conclusion

India has the potential to become one of the top tourism centres in the world. With its cultural diversity, historical landmarks, adventure tourism opportunities, medical tourism facilities, and warm hospitality, India has a lot to offer to tourists, that's why our website tries to provide memorable experiences and unforgettable adventures to our users.
